Amanda Nelson is Internationally known for her distance handling skills. She has been teaching seminars for 20+ years throughout the United States and other countries. Amanda's distance work focuses on teaching dog and handler teamwork. Amanda uses techniques consisting of targeting, food rewards, and toy rewards to create a fun learning environment for the dog and the handler. The result is a fast, fun, and motivated dog in the agility ring.

This seminar is open to teams who have earned a elite regular title and a elite chances title. This seminar will be geared to teams who are interested in venturing into the distance challenge and bonus areas of courses, or for people that are wanting to move on to the stakes divisions at Championships.

Day 1 Monday - Foundation for Distance

Morning - Foundation for Distance – Amanda's foundation program for distance. An overview of how solid distance foundations benefits both dog and handler.

- Active vs. Stationery targets used to reinforce distance.
 - Reward Delivery - Food Drive or Toy drive (how, what and when).
- What skills are needed for successful, high level distance work.

- Review of foundation work specifically for distance handling.
- Working sequencing for obstacle commitment, confidence, discrimination skills at a distance

Afternoon – Chances bonus work.

-Chances course work specific for DC and bonus areas

Day 2 Tuesday - Regular and Jumpers DC and bonus work

Morning - Distance foundation evaluation for trials

-Discussion on when and why to do distance challenges or bonuses at regular trial situations.

-Is my dog ready for what is set on course?

-How often should I do DC or bonuses?

-When to venture into the stakes ring at Champs.

-Jumpers DC and bonus area work.

Afternoon - Regular DC and bonus area work

-Strategies to walking courses with a distance attempted planned.

-Breaking the course down and running sequences

-Full course run.
